

## Invitation to the Open Knowledge Day 2023 and workshop

**17 October 2023 from 10.00 to 16.00 live at +MSUM and [online](#).**

We invite you to the fourth Open Knowledge Day, where we will discuss with experts from different European countries the legal basis for data analytics, a key part of machine learning and related artificial intelligence. In addition, we will present open science in theory and practice both in Slovenia and in some Western Balkan countries. We invite representatives of research and educational institutions from Slovenia and the Western Balkan countries as well as the interested public. Join us and explore the world of innovative approaches and the latest developments in the field of open knowledge.

The event will take place on **17 October 2023** from 9.30 a.m. to 2.30 p.m. at the [Museum of Contemporary Art, Maistrova 3, 1000 Ljubljana](#) (+MSUM). The event will also be webcast at the following [ZOOM link](#) (<https://us06web.zoom.us/j/83787217490>).

Please pre-register for the event online at the following link: [registration](#). Participants will also be able to register on the day of the event at +MSUM on 17.10.2023 from 9.00 to 9.30.

This year the event will be held entirely in English, as many guests from abroad will be attending. The lectures will be given by Benjamin White, prof. dr. sc. Ivana Kunda, prof. dr. Iza Rezija, prof. dr. Neda Zdravova, prof. dr. Dušan V. Popović, Paul Keller and univ. ass. dr. Žiga Škorjanc.

In June this year, the [KR21 Research Network for the Western Balkans](#) was established as part of the Knowledge Rights 21 project. The first research work was in the area of copyright exceptions for data and text mining. The event will address this specific exception, which constitutes the legal basis for data analytics, as well as the general exception for research, which was introduced in the EU by the [Infosoc Directive 2001/29/EC in 2001](#), but implemented in Slovenia only last year with the amendment of the copyright legislation. In the last part of the presentation, MSc. Dunja Legat will present the topic of open science as it is practiced in Slovenia in accordance with the strategy and legislation in this area. Guests from the Western Balkan countries will present the activities in this area in Croatia, Bosnia and Herzegovina, North Macedonia and Serbia.

### OKD workshop

**18 October 2023 from 10.00 to 14.00 live at +MSUM**

As part of the Open Knowledge Day, we are organizing a special workshop for researchers from the KR21 Researchers Network for the Western Balkans, which will take place on **18 October 2023** at the [Museum of Contemporary Art, Maistrova 3, 1000 Ljubljana](#) (+MSUM).

The workshop will discuss in more detail the issues of copyright management and open data in line with the principles of open science. We will focus on the obligation of authors to manage their copyrights in accordance with the principles of open science, which means the possibility to retain their rights. We will also examine the specific legal regime that addresses the presumption of authors' reservation of secondary publication rights. In the second part, we will discuss the research in the field of data and text mining that is being carried out in the framework of the KR21 Researchers' Network for the Western Balkans.

We invite representatives of research and educational institutions from Slovenia to join our workshop. The event will be held live only and will not be available online. Pre-registration is required for participation in the workshop and must be completed no later than 17.10.2023, at the following link: [registration](#). The workshop will be held in English. The number of places is limited and priority will be given to representatives of institutions that are members of the Slovenian Open Science Community.

## **PROGRAMME - 17 October - Open Knowledge Day Conference**

**9.00 - 9.30**     **Arrival of participants and registration**

**9.30 - 9.45**     **Welcome address**

Dr. Maja Bogataj Jančič, Institute for Open Data and Intellectual Property ODIPi

**9.45 - 10.15**   **KNOWLEDGE RIGHTS 21 - project presentations**

Benjamin White, Knowledge Rights 21

**10.15 - 10.45**   **Legal basis for data and text mining around the world**

Benjamin White, Knowledge Rights 21

**10.45 - 11.15**   **Legal basis for data and text mining in the EU**

Paul Keller, Open Future

**11.15 - 11.30**   **Exemption for data and text mining for researchers in Slovenia**

Dr Maja Bogataj Jančič, Open Data and Intellectual Property Institute

**11.30 - 11.45 Questions and Answers**

**11.45 - 12.00 Coffee break**

**12.00 - 12.50 Exceptions and limitations of copyright for scientific research purposes - the regime in Croatia, Bosnia and Herzegovina, Serbia and North Macedonia**  
prof. dr. sc. Ivana Kunda, Prof. Dr. Iza Rezija, Prof. Dr. Neda Zdravova, Prof. Dr. Dušan V. Popović  
Moderated by: Dr Maja Bogataj Jančič

**12.50 - 13.20 Open Science in Theory and Practice in Slovenia**  
M.Sc. Dunja Legat

**13.20 - 13.30 Questions and Answers**

**13.30 - 14.30 Round table: Open Science in the Western Balkan countries**  
**Action Plans in Croatia, Bosnia and Herzegovina, Serbia and North Macedonia**  
Prof. Dr. sc. Prof. Dr. Ivana Kunda, Prof. Dr. Iza Rezija, Prof. Dr. Neda Zdravova,  
Prof. Dr. Dušan V. Popović  
Moderated by Dr Maja Bogataj Jančič

**14.30 - 14.40 Questions and Answers**

## **PROGRAMME - 18 October - Open Knowledge Day workshop**

**9.30 - 10.00 Arrival of participants and registration**

**10.00 - 11.00 Open Science and Copyright Management**

**11.00 - 12.00 Second publishing rights**  
uni. ass. dr. Žiga Škorjanc, Institut für Innovation und Digitalisierung im Recht  
Universität Wien

**12.00 - 12.15 Coffee break**

## **12.15 - 14.00 Exemption for data and text mining and discussion of the research**

**Details to follow**

### **OPEN KNOWLEDGE**

*Open knowledge is knowledge that anyone can use, process and disseminate without legal, social or technological restrictions. Open data and open content, open science and open education, open hardware and open computing, are all building blocks of open knowledge and, consequently, of an open society.*

### **EVENT ORGANIZER**

*Open Data and Intellectual Property Institute, [National Coordinator of Knowledge Rights 21 for Slovenia and Regional Coordinator of Knowledge Rights 21 for the Western Balkans.](#)*
